

- MISSION-CRITICAL POWER DISTRIBUTION

1000A RPP

REMOTE POWER PANEL

Built for the Demands of Modern High-Density Power Distribution

A purpose-built, ground-up 1000A Remote Power Panel engineered for modern high-density environments including AI workloads, hyperscale, and colocation facilities where capacity, simplicity, and uptime are non-negotiable.

NOT A MODIFIED LEGACY DESIGN — A **TAILORED ENGINEERED SOLUTION** FOR TODAY'S MOST DEMANDING LOADS.

WHY IT MATTERS

RPP/ 1000A SERIES

01 /03

HIGHER DENSITY AT THE PANEL

Delivers 1000A distribution closer to the load — reducing workarounds that push capacity upstream into larger PDUs and added distribution layers.

02 /03

STREAMLINED ARCHITECTURE

Reduces dependence on upstream equipment and unnecessary distribution layers, simplifying coordination, footprint, and overall system design.

03 /03

BUILT FOR AI & HYPERSCALE

A scalable foundation for the high-density loads driving today's AI and hyperscale facilities.

- A NEW BASELINE FOR PANEL-LEVEL POWER

A NEW STANDARD.

Higher ampacity is no longer a workaround - it's a design baseline. The 1000A RPP is engineered from a clean sheet to deliver capacity at the panel level, simplify upstream architecture, and support today's mission-critical load densities.

- ▶ 1000A Bus Configuration
- ▶ Branch Circuit Monitoring
- ▶ Power Metering & Analytics
- ▶ Surge Protective Device (SPD)
- ▶ Main Breaker or Main Lug
- ▶ Remote Monitoring Ready
- ▶ Custom Colors on Request

BUS RATING UP TO
1000A

ENCLOSURE RATING
NEMA 1

UP TO
600VAC

CERTIFICATIONS
UL 67 & 891

- **ENGINEERED FOR**

AI WORKLOADS / HYPERSCALE / MISSION-CRITICAL INFRASTRUCTURE

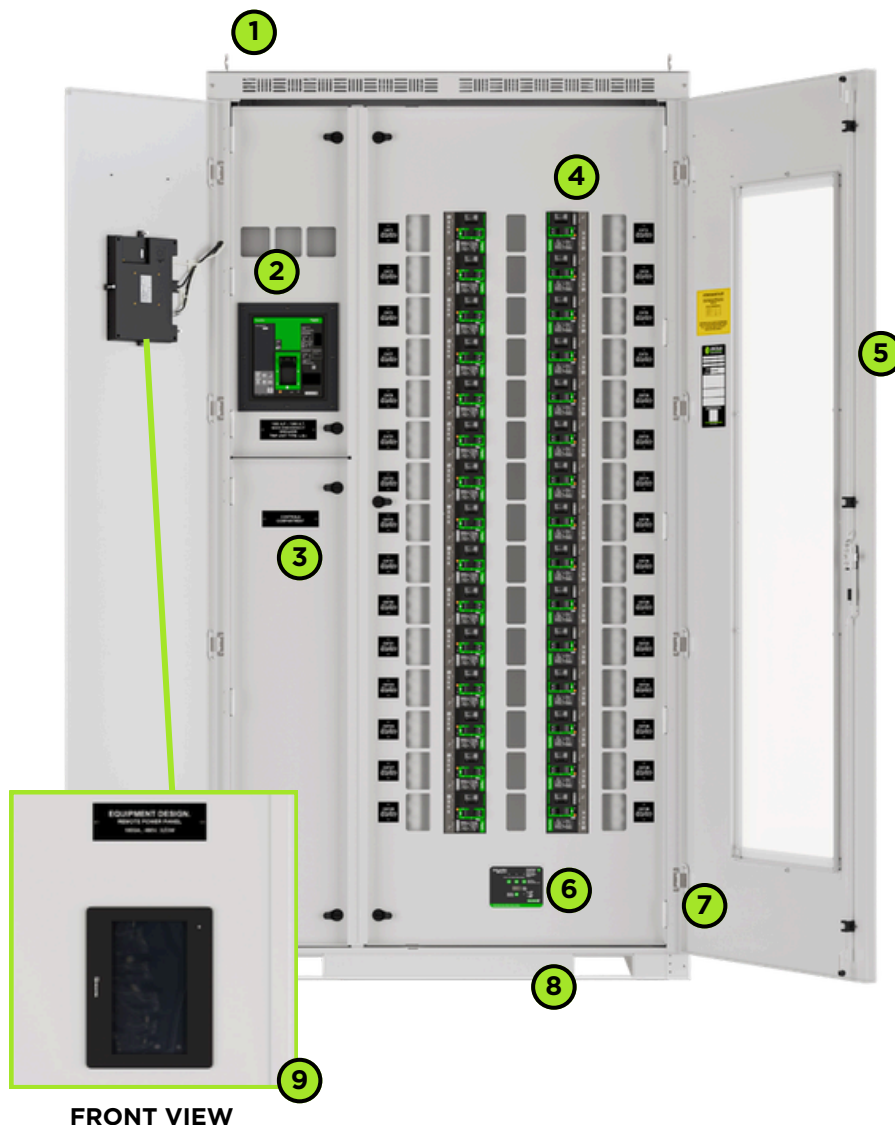

- ENGINEERED FEATURES

KEY FEATURES

RPP/ 1000A SERIES

- ① Lifting Eyes
- ② Separated/Barriered Main Breaker
- ③ Segregated Controls Compartment
- ④ Line & Load Side IR Windows
- ⑤ Outer Door Viewing Window
- ⑥ Surge Protection Device
- ⑦ Fully Hinged Front Access Doors
- ⑧ Forklift Openings
- ⑨ Customized Touchscreen HMI

CUSTOMIZABLE OPTIONS

- ▶ Continuous Thermal Monitoring
- ▶ Line & Load Side IR Viewing Ports
- ▶ Integrated Surge Protective Device
- ▶ Forklift Openings
- ▶ Door Stops
- ▶ Custom Colors on Request

- BUILT TO ORDER Every RPP is engineered to your project requirements - **tell us what you need and we'll make it.**
